In 2015, the Department will continue implementation of the Rental Assistance Demonstration (RAD), authorized by the Consolidated and Further Continuing Appropriations Act of 2012 (P.L. 112-55). Under RAD, Public Housing Authorities (PHAs) and other owners of rental properties assisted under the Public Housing, Moderate Rehabilitation (Mod Rehab), Rent Supplement (Rent Supp) and Rental Assistance Payment (RAP) programs are offered the option to convert their properties to long-term, project-based Section 8 contracts that can leverage private financing for capital improvements.

While the Department will continue to process no-cost conversions in 2015, the Budget requests \$10 million for a targeted expansion of RAD to Public Housing properties that cannot feasibly convert at existing funding levels and are located in high-poverty neighborhoods, including designated Promise Zones, where the Administration is supporting comprehensive revitalization efforts. This request will cover the incremental subsidy cost of converting approximately 5,000 Public Housing units, thereby increasing private investment in targeted projects and surrounding neighborhoods.

The Budget also includes the following proposals to facilitate additional no-cost conversions of HUD-assisted properties: (1) eliminates the 60,000 unit cap on Public Housing and Section 8 Mod Rehab conversions and extends the application deadline for such conversions to September 30, 2018; (2) makes Section 8 Mod Rehab Single Room Occupancy properties eligible for RAD; (3) extends the sunset date on conversions of Rent Supp, RAP and

Mod Rehab properties under the second component of RAD to September 30, 2016; and (4) authorizes the conversion of Rent Supp and RAP properties to PBRA contracts. These proposals are included in the general provisions at the end of this budget chapter.

The 2015 Budget provides \$20 billion for the Tenant-Based Rental Assistance program (also known as the Housing Choice Voucher program). The Housing Choice Voucher program provides housing assistance to 2.2 million extremely low- to very low-income families to rent in the neighborhoods of their choice. This is the Federal government's largest and most income-targeted program for assisting extremely low and very low-income families to rent decent, safe and sanitary housing in the private market. About 2,350 state and local Public Housing Authorities (PHAs) administer the Housing Choice Voucher program.

The Budget provides sufficient funding for contract renewals to not only continue assistance for families anticipated to be under lease in 2014, including renewing over 14,000 vouchers for persons with disabilities, the Budget restores reductions in assisted housing units that resulted from the 2013 sequestration funding cut. In addition, the Budget includes \$75 million for 10,000 new vouchers for homeless veterans through the HUD-Veteran Affairs Supportive Housing (HUD-VASH) program that will contribute to the goal of ending homelessness among veterans by 2015. The Budget also allows HUD to allocate HUD-VASH funding to eligible, high capacity Native American Housing Block Grant recipients to specifically address needs of Native American homeless veterans on tribal lands. The Budget requests \$150 million for tenant protection vouchers (TPVs), which are provided when certain actions occur beyond the control of the residents, such as public housing demolition or disposition, or when landlords terminate their Project-Based Rental Assistance contracts. While HUD will continue to issue TPVs to protect residents from any adverse actions, the Budget requests new authority to ensure that the allocation of TPVs for housing conversions do not result in a net gain of affordable housing resources for a community that go beyond replacing vouchers for the loss of affordable units.

The Budget supports additional legislative reforms to HUD's core rental assistance programs, including: (1) Expanding the Moving to Work program to high capacity PHAs; (2) Allowing fixed-income families to recertify their incomes every three years; and (3) Increasing the threshold used to determine deductions for unreimbursed medical expenses from 3 to 10 percent of family income. In addition to these crosscutting reforms, the Budget proposes the following reforms to the Housing Choice Voucher program: (1) Improving the Project Based Voucher Program; (2) Addressing homelessness through expansion of the sponsor-based assistance model; and (3) Streamlining the process for establishing annual Fair Market Rents. The Administration also continues to improve the management of the Housing Choice Voucher program by developing the Next Generation Management System, which will overhaul and improve HUD information technology systems to better manage and administer the program. While some reforms are included in the general provisions at the end of this chapter, all others will be included in authorizing legislation to be transmitted to Congress in the Spring of 2014.

Until 2005, the Housing Certificate Fund provided funding to both the project-based and tenant-based components of the Section 8 program. Project-Based Rental Assistance and Tenant-Based Rental Assistance are now funded in separate accounts. The Housing Certificate Fund retains and recovers balances from previous years' appropriations, and uses those balances to support contract renewals, amendments, and performance-based contract administrators.

The Budget proposes \$1.925 billion for the Public Housing Capital Fund, a formula program designed to address the capital and management improvement needs of Public Housing properties. This program preserves and enhances a valuable affordable housing resource that serves approximately 1.1 million low-income families. Of the amount requested, over \$1.8 billion will fund capital grants to Public Housing Authorities (PHAs). The balance includes: up to \$25 million for Jobs-Plus, an evidence-based strategy for increasing the employment and earnings of public housing residents; up to \$20 million for emergency capital needs resulting from non-Presidentially declared emergencies and natural disasters; up to \$8 million for financial and physical assessments of Public Housing and other HUD-assisted properties; and up to \$5 million for administrative and judicial receiverships to assist PHAs recovering from serious financial, physical, or management problems.

PUBLIC HOUSING OPERATING FUND

For [2014] 2015 payments to public housing agencies for the operation and management of public housing, as authorized by section 9(e) of the United States Housing Act of 1937 (42 U.S.C. 1437g(e)), [\$4,400,000,000 : *Provided*, That in determining public housing agencies', including Moving to Work agencies', calendar year 2014 funding allocations under this heading, the Secretary shall take into account the impact of changes to flat rents on public housing agencies' formula income levels] \$4,600,000,000. The Budget requests \$4.6 billion for the Public Housing Operating Fund, which provides subsidies to Public Housing Authorities (PHAs) to assist in funding the operating expenses of Public Housing units in accordance with Section 9(e) of the United States Housing Act of 1937. The Budget also proposes numerous legislative reforms to HUD's core rental assistance programs, including Public Housing. In addition to crosscutting reforms, which are summarized under the Tenant-Based Rental Assistance heading, the Budget includes two proposals specific to Public Housing: (1) provides all PHAs with full flexibility to use their operating and capital funds for any eligible expense under both programs; and (2) establishes a utilities conservation pilot to encourage PHAs to undertake energy conservation measures and reduce Federal costs. The first proposal is reflected in the general provisions at the end of this budget chapter while the second proposal will be included in authorizing legislation to be submitted to Congress in the spring of 2014.

The Budget proposes \$120 million for Choice Neighborhoods to continue the transformation of neighborhoods of concentrated poverty into sustainable, mixed-income neighborhoods with well-functioning services, schools, public assets, transportation, and access to jobs. The goal of the program is to transform distressed neighborhoods and improve the quality of life of current and future residents by coordinating and concentrating neighborhood investments from multiple sources. The Budget will fund 3-4 implementation grants and up to 20 planning grants.

Choice Neighborhoods also supports the Administration's Promise Zones initiative, which is creating partnerships between the Federal government, local communities and businesses to create jobs, increase economic activity, reduce violence and expand educational opportunities. The President announced the first five Promise Zones in January 2014 and will designate an additional 15 Zones in the year ahead. The Budget includes companion investments of \$100 million in the Department of Education's Promise Neighborhoods program and \$29.5 million in the Department of Justice's Byrne Criminal Justice Innovation Grants program, as well as tax incentives to promote investment and economic growth in the Zones.

The HOPE VI program, in coordination with funding from the Public Housing Capital Fund, has accomplished its goal of contributing to the demolition of approximately 100,000 severely distressed Public Housing units. The Budget proposes no additional funds for this program. Instead, the Budget builds on the success of HOPE VI with the Choice Neighborhoods program, which makes a broad range of transformative investments in high-poverty neighborhoods where Public Housing and other HUD-assisted housing is located.

The Budget requests \$75 million for a consolidated Family Self-Sufficiency (FSS) Program to help Housing Choice Voucher, Public Housing, and Project-Based Rental Assistance (PBRA) residents achieve self-sufficiency and economic independence. The newly consolidated FSS program is designed to provide service coordination through community partnerships that link assisted residents with employment assistance, job training, child care, transportation, financial literacy, and other supportive

services. The funding will be allocated through one competition to eligible Public Housing Authorities (PHAs) and PBRA owners to support service coordinators. The consolidated FSS program for Housing Choice Voucher and Public Housing families enables PHAs to more uniformly serve both programs' residents. Expanding eligibility to PBRA properties gives interested PBRA owners the ability to work with their local PHAs with existing FSS programs and/or implement their own FSS program to serve workable families in this asset-building program. In addition, opening participation to PBRA owners would support Public Housing residents already enrolled in the FSS program during conversions through the Rental Assistance Demonstration (RAD).

The Budget proposes \$650 million for the Native American Housing Block Grant program. This program allocates funds on a formula basis to Indian tribes and their designated housing entities to help them address housing and other needs within their communities. In 2013, out of a population of 1.6 million American Indians and Alaska Natives in block grant formula areas, it is estimated that more than 100,000 households were either overcrowded or lacked adequate plumbing or kitchen facilities.

For several reasons, including the significant unmet needs in Indian Country, it is important that grantees spend program funds in a timely manner and avoid accumulating excessive undisbursed balances from prior-year grants. The Budget proposes to withhold funding from any grantee that, on January 1, 2015, has a total undisbursed balance greater than three times the funding allocation it would otherwise receive in 2015. This proposal will not affect grantees with funding allocations below \$5 million, and any funds withheld will be allocated among all other grantees in accordance with the need component of the formula.

The Budget also proposes several legislative reforms to improve the allocation of grant funds and strengthen program oversight, including: (1) phasing out of the formula homeownership units developed under the U.S. Housing Act of 1937; (2) strengthening HUD's authority to temporarily suspend recipients' access to grant funds to ensure the lawful expenditure of those funds; and (3) clarifying HUD's authority to take back funds distributed based on inaccurate information. These reforms will be transmitted to Congress in the spring of 2014.

Within the total amount requested, \$2 million is for the Title VI loan guarantee program. The Title VI program provides a Federal guarantee of notes or other obligations issued by Indian tribes or tribally designated housing entities for the purpose of financing affordable housing activities. Combined with \$1 million in prior-year funds, the amount requested is sufficient to guarantee \$27 million in loans.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The Hawaiian Homelands Homeownership Act of 2000 (P.L. 106-568) amended the Native American Housing Assistance and Self-Determination Act of 1996 by adding Title VIII, which authorized the Native Hawaiian Housing Block Grant program. This program provides funds to assist and promote affordable housing activities to develop, maintain and operate affordable housing for eligible low-income Native Hawaiian families.

It authorizes annual grants to the Department of Hawaiian Home Lands (DHHL) for housing and housing-related assistance, pursuant to an annual housing plan, within the area in which DHHL is authorized to provide that assistance. DHHL uses performance measures and benchmarks that are based on the needs and priorities established in its five- and one-year housing plans. The 2015 Budget requests \$13 million for this program.

The Indian Housing Loan Guarantee program (also known as the Section 184 program) provides access to private mortgage financing for Indian families, Indian tribes, and their tribally designated housing entities who otherwise could not acquire such financing because of the unique legal status of Indian trust land. The Budget provides \$8 million to support additional loan guarantees and administrative systems support.

The 2013 Appropriations Act gave HUD authority to increase fees within this program, and HUD is exercising this authority in 2014 by increasing the upfront fee by 50 basis points to 1.5 percent. To ensure that budgetary resources are sufficient to meet projected demand for the program, HUD will also implement an annual fee of 15 basis points in 2015.

The Budget also includes a number of statutory changes to reduce program losses and ensure its long-term viability, including requirements for participating lenders to: (1) consider loan modification options for borrowers; and (2) indemnify HUD for insurance claims paid on any loans that are found not to meet the Department's guidelines. In addition, the Budget updates several statutory program definitions to align them with the Native American Housing Assistance and Self-Determination Act of 1996. All proposed statutory changes are included in the general provisions at the end of this budget chapter.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The Native Hawaiian Housing Loan Guarantee program (also known as the Section 184A program), provides access to private mortgage financing to Native Hawaiian families who are eligible to reside on the Hawaiian Home Lands and who otherwise could not acquire such financing because of the unique legal status of the Hawaiian Home Lands. Because the program has sufficient carryover funds, the 2015 Budget does not provide any new credit subsidy budget authority.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 2001 and beyond (including modifications of guarantees that resulted from obligations in any year). The subsidy amounts are estimated on a net present value basis. The administrative expenses are shown on a cash basis.

The 2015 Budget provides \$332 million for the Housing Opportunities for Persons with AIDS (HOPWA) program, the only Federal program dedicated to address the housing needs of low-income Americans living with HIV and AIDS. HOPWA funding provides States and localities with resources to devise long-term comprehensive strategies for planning and providing housing and supportive services to meet the housing needs of persons living with HIV and AIDS and their families. HOPWA funds have been demonstrated to help reduce the risk of homelessness, increase housing stability, and improve access to HIV care and health outcomes for program participants.

Ninety percent of HOPWA funds are distributed to States and eligible metropolitan areas according to a formula, which is based on cumulative AIDS cases. The remaining ten percent are awarded competitively to States, local governments, and private nonprofit entities for projects of national significance and for projects in non-formula areas. However, the HOPWA formula does not reflect the current nature and distribution of the epidemic. To modernize the program, the Administration is proposing an updated formula based on cases of persons living with HIV and adjusted for an area's fair market rent and poverty rates, focusing HOPWA funds on areas that have the most need. The proposal also includes several changes that will allow better targeting of HOPWA resources and more flexibility for grantees to provide the most cost-effective, timely interventions.

HUD is working in partnership with Federal agencies through the HIV Care Continuum to improve outcomes that promote greater achievements in viral suppression through the coordination and alignment of housing support with medical care for people living with HIV. Furthermore, HUD is placing greater emphasis on coordinating local planning and service delivery of HOPWA housing resources with local homeless Continuums of Care. This effort is expected to increase local collaborations in the delivery of housing and services, and reduce duplication of local systems of support.

Within the Community Development Fund, the Budget includes \$2.8 billion for the Community Development Block Grant (CDBG) program and \$70 million for the Indian CDBG program.

The CDBG program provides over 1,200 flexible annual formula grants to States, local governments, and Insular Areas to benefit mainly low-to moderate-income persons, and support a wide range of community and economic development activities, such as public infrastructure improvements (approximately 33 percent of all CDBG funds), housing rehabilitation and construction (approximately 25 percent of funds), job creation and retention, and public services (e.g., child care). 70 percent of the CDBG

COMMUNITY DEVELOPMENT FUND—Continued

formula grants are distributed to mainly urban areas (entitlement communities), and 30 percent are distributed to the States (non-entitlement communities).

In August 2014 the CDBG program will celebrate its 40th anniversary, but in that time, the impact of the CDBG program has been uneven. Adjusted for inflation, recent appropriations represent only about 25 percent of the 1978 funding level, while the number of grantees has doubled. In recognition of the anniversary and these challenges, there is a need to reevaluate the program, its rules and its design to ensure that it provides targeted benefits to the nation's communities and, more specifically, to low- and moderate-income populations.

In support of these goals, in 2013 HUD undertook an outreach effort titled "Moving CDBG Forward" to provide CDBG stakeholders the opportunity to assess One CPD technical assistance, the program itself, and to recommend improvements. Recommendations gathered through the process, HUD's expertise administering the program and research conducted by HUD's Office of Policy Development and Research form the basis for the Department's legislative package of CDBG reforms that will be transmitted in the spring of 2014. This legislative package will focus on reforms that strengthen the CDBG program; help grantees target funding resources to areas of greatest need; enhance program accountability; synchronize critical program cycles with the consolidated plan cycle; reduce the number of small grantees; and provide more options for regional coordination, administration, and planning. Regional coordination will allow grantees to achieve administrative savings and pool resources to make strategic investment decisions.

The Budget also includes \$70 million for the Indian Community Development program. This program provides grants to help develop viable Indian and Alaska Native Communities with decent housing, a suitable living environment, and economic opportunities, primarily for low- and moderate-income persons. Within this account, \$10 million is provided to address mold issues in Indian housing, which will be distributed through a national competition.

This account also reflects \$15.2 billion in CDBG funding (post-sequestration) appropriated by the Disaster Relief Appropriations Act, 2013 (Public Law 113–2). These funds are intended primarily to respond to the effects of Hurricane Sandy that impacted the Atlantic Coast in late October 2012, but are also available to respond to other significant Presidentially-declared disasters that occurred in calendar years 2011, 2012, and 2013. Other amounts reflected in this account include prior-year CDBG disaster supplemental funding, as well as funds provided by the 2009 American Recovery and Reinvestment Act (\$1 billion in CDBG formula grants and \$2 billion for Neighborhood Stabilization Program II grants).

【Unobligated balances, including recaptures and carryover, remaining from funds appropriated to the Department of Housing and Urban Development under this heading are hereby permanently rescinded.】 (*Department of Housing and Urban Development Appropriations Act, 2014.*)

Introduced in 1993, the Empowerment Zone (EZ), Enterprise Community (EC), and Renewal Community (RC) Initiatives sought to reduce unemployment and generate economic growth through the designation of Federal tax incentives and award of grants to distressed communities. The tax incentives for ECs and RCs have

both expired, while EZ tax incentives were extended to December 31, 2013 by the American Taxpayer Relief Act of 2012. In 2014, all unobligated balances, including recaptures and carryover, were rescinded.

The 2015 Budget requests no funding for the Brownfields Economic Development Initiative (BEDI), which was a competitive grant program designed to assist cities with the redevelopment of brownfield sites for the purposes of economic development and job creation. Local governments have access to other public and private funds, including Community Development Block Grant (CDBG) funds, which can serve similar purposes.

The Budget requests \$950 million for HOME, with up to \$10 million set-aside for the Self-help Homeownership Opportunity Program (SHOP). The HOME Investment Partnerships Program provides flexible annual formula grant assistance to States and units of local government to increase the supply of affordable housing and expand homeownership for low- to very-low income persons through a wide range of activities that build, buy, and/or rehabilitate affordable housing. Sixty percent of the formula grant funds is awarded to participating local governments and 40 percent is awarded to states. Projects funded by HOME often leverage private dollars and are used in conjunction with the Low-Income Housing Tax Credit (LIHTC), Community Development Block Grant, and local funds. For example, 65 percent of about 178,000 completed HOME assisted rental units were part of awarded LIHTC projects from fiscal years 2009 through 2013. Over time, HOME funding is estimated to result in the production of almost 36,000 units of affordable housing through new construction, rehabilitation, and/or acquisition. It is also estimated

that communities will use a portion of their funding to support tenant-based rental assistance for almost 8,000 units.

The 2015 Budget also proposes statutory changes that would allow recaptured Community Housing Development Organization funds to be reallocated by formula; establish a single qualification threshold of \$500,000 irrespective of the appropriation amount; revise the current "grandfathering" provision so that participating jurisdictions that fall below the threshold three years out of a five-year period are ineligible for direct formula funds; and facilitate eviction of HOME rental unit tenants who pose an imminent threat to other residents' safety. When implemented, these changes will improve the targeting focus and effectiveness of the overall administration of the program.

SHOP is a competitive grant program that provides funds to increase the ability of non-profit organizations to assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their homes. Communities can further leverage SHOP grants by using other sources of funding, including HOME funds, which can also be used for sweat equity projects. The 2015 Budget also proposes statutory changes that would improve the administration of the SHOP program. These include authorization to allow HUD to develop program regulations over five pages long, establishing a standard grant term of 36 months, establishing a deadline for completion of SHOP units, and explicitly naming planning, administrative, and management costs as eligible activities.

The Housing Trust Fund was originally authorized in the Housing and Economic Recovery Act of 2008 (Pub. L. 110-289) under section 1338 of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (U.S.C. 1301 et. seq.) with a dedicated funding stream from assessments on Fannie Mae and Freddie Mac. However, the Federal Housing Finance Agency, the regulator for Fannie Mae and Freddie Mac, has indefinitely suspended these assessments.

HOUSING TRUST FUND—Continued

The Budget proposes a \$1 billion mandatory appropriation to capitalize the Housing Trust Fund. The purpose of the Housing Trust Fund is to provide grants to States to increase and preserve the supply of affordable rental housing and homeownership opportunities for extremely low- and very low-income families. This program is similar to HOME, but is more income targeted. Funds will be distributed by formula to States or State-designated entities to be used primarily for construction, preservation, and rehabilitation of affordable rental housing, with up to ten percent of the funding for similar eligible activities that support homeownership. Of the total amounts made available, not less than 75 percent shall be used to benefit extremely low-income households, for whom the shortage of affordable housing is most acute. Over time, the funding provided for the Housing Trust Fund in 2015 is expected to produce approximately 16,000 affordable units using a mix of funding sources, including other public funds, tax credits, and private debt.

CAPACITY BUILDING

For the second, third, and fourth capacity building activities authorized under section 4(a) of the HUD Demonstration Act of 1993 (42 U.S.C. 9816 note), \$20,000,000, to remain available until September 30, 2016.

The 2015 Budget provides \$20 million for the Capacity Building for Community Development and Affordable Housing program, which is authorized by Section 4 of the HUD Demonstration Act of 1993. The Capacity Building program provides grants to national intermediaries to develop, enhance, and strengthen the technical and administrative capabilities of community development corporations to carry out community development and affordable housing activities for low- and moderate-income persons that support and address local needs and priorities. This program was previously funded as a part of the Self-Help and Assisted Homeownership Opportunity Program account.

The 2015 Budget requests no separate funding for the Self-Help and Assisted Homeownership Opportunity Program (SHOP) account. Instead, SHOP is included as part of the request for the HOME Investment Partnerships Program. Activities under the Capacity Building for Community Development and Affordable Housing Program are requested separately under the Capacity Building account.

The Neighborhood Stabilization Program (NSP) was first authorized by the Housing and Economic Recovery Act of 2008 (HERA) and funded at \$3.92 billion. In response to the foreclosure crisis, HERA directed HUD to develop a formula to distribute the funds to State and local governments with the greatest need. Grantees were allowed to use NSP funds for a number of eligible activities, including establishing financing mechanisms; purchasing and rehabilitating abandoned or foreclosed properties; establishing land banks; demolishing blighted structures; and redeveloping vacant or demolished property.

The American Recovery and Reinvestment Act of 2009 (ARRA) made several changes to the NSP program as enacted by HERA and appropriated an additional \$2 billion in funding for the NSP program. The ARRA funding for the second round of NSP funding (NSP2) is reflected within the Community Development Fund account.

The Dodd-Frank Financial Reform and Consumer Protection Act of 2010 (Dodd-Frank Act) appropriated an additional \$1 billion for a third iteration of NSP (NSP3) in July 2010. As of January 2014, NSP 3 grantees had expended 80 percent of funds. Most grantees intend to expend 100 percent of their NSP3 grant funds by March 31, 2014, and HUD will closely monitor their performance and provide technical assistance or implement sanctions as appropriate.

The Budget proposes \$15 billion in mandatory funding for Project Rebuild which would build upon the success of the NSP program and expand opportunities for grantees to address abandoned and foreclosed properties. Funds will be distributed via formula to State and local governments as well as competitively to governmental, non-profit and for-profit entities. Building upon proven approaches, Project Rebuild will bring in expertise and capital from the private sector, increase eligibility of commercial properties, focus on property improvements, expand innovat-

ive solutions like land banks, and fund job training programs to strengthen local workforce capacity. Collectively, these programs will not only create construction and other jobs but will help reduce blight and crime, foster economic development, stabilize housing prices and neighborhoods, and help worst-affected communities turn the corner to recovery.

The Homeless Assistance Grants account provides funds for the Emergency Solutions Grant (ESG) and Continuum of Care (CoC) programs. These programs, which award funds through formula and competitive processes, enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness. Many communities have made great strides in creating comprehensive approaches to ending homelessness—particularly chronic homelessness—through the development of local plans.

The 2015 Budget provides \$2.406 billion for a wide range of activities to assist homeless persons and prevent future occurrences of homelessness. HUD estimates it will use \$2.184 billion for competitive renewals and new permanent supportive housing in the CoC program and \$215 million for ESG. The Budget also includes \$7 million for the National Homeless Data Analysis Project.

The 2015 Budget makes significant progress toward ending homelessness by supporting the goals of the Federal Strategic Plan to Prevent and End Homelessness which was published by the U.S. Interagency Council on Homelessness in 2010. Supported by the collection of robust data and using best practices from across the country, the Budget sets a path for achieving the Administration's ambitious goals of ending Veterans homelessness by 2015 and ending chronic homelessness by 2016.

In 2015, HUD will continue the implementation of the McKinney-Vento Act as amended by the HEARTH Act.

This program was created by the Supplemental Appropriations Act, 2008 (P.L. 110-252), and provided \$73 million for permanent supportive housing assistance as referenced in the Road Home Program of the Louisiana Recovery Authority (LRA). Of the total amount appropriated, \$50 million was for permanent supportive housing, serving approximately 1,000 homeless individuals and families living with disabilities. The LRA is eligible to apply for Homeless Assistance Grants to renew this assistance. Addition-

ally, this account provided \$23 million in project-based rental assistance vouchers to LRA to support an estimated 2,000 elderly and disabled disaster victims, as authorized. Beginning in 2010, these vouchers have been renewed within the Tenant-Based Rental Assistance account upon the termination of the original subsidy.

The Revolving Fund (liquidating programs) was established by the Independent Offices Appropriations Act of 1955 for the efficient liquidation of assets acquired under a number of housing and urban development programs, all of which are no longer active. For example, the Section 312 loan program portfolio, which provided first and junior lien financing at below market interest rates for the rehabilitation of homes in low-income neighborhoods, constituted a large portion of the account activities but has since ceased to originate new loans for over 20 years ago. The operational expenses are financed from a permanent, indefinite appropriation to administer the remaining repayments of loans and recaptures in the portfolio. Annually, any remaining unobligated balances in the account are returned as a dividend to the Treasury.

The Community Development Loan Guarantee program (Section 108) supports economic development projects, housing rehabilitation, and the rehabilitation, construction or installation of public facilities for the benefit of low- to moderate-income persons or to aid in the prevention of slums. The 2015 Budget increases the guaranteed loan limit to \$500 million, but does not request credit subsidy for the program. The Budget requires HUD to collect fees to offset credit subsidy costs such that the program operates at a zero credit subsidy cost. The Budget also proposes legislative changes to the Housing and Community Development Act of 1974 to align to the new fee structure. Carryover loan guarantee credit subsidy in this account will continue to be used until exhausted.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the loan guarantees committed since 1992, including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year. The subsidy amounts are estimated on a present value basis.

The Budget requests \$9.746 billion for Project-Based Rental Assistance (PBRA), of which \$400 million is requested as an advance appropriation to become available in 2016. The PBRA program assists approximately 1.2 million extremely low- to low-income households in obtaining decent, safe, and sanitary housing in private accommodations. PBRA serves families, elderly and disabled households and provides transitional housing for the

homeless. Through this funding, HUD supports approximately 17,400 contracts with private owners of multifamily housing by paying the difference between what a household can afford, generally 30 percent of its eligible income, and the approved market-based rent for a housing unit.

The Budget shifts funding for PBRA contracts to a calendar year cycle, which is consistent with current practice in the Tenant-Based Rental Assistance and Public Housing programs and should result in more predictable funding cycles in future years. HUD does not expect this new funding method to have a significant impact on tenants or other stakeholders because there is no change in contract terms or duration.

The Budget proposes legislative reforms to HUD's core rental assistance programs, including PBRA. In addition to these crosscutting reforms, which are summarized under the Tenant-Based Rental Assistance heading, the Budget includes the following proposals that are specific to the PBRA program: (1) establishes a demonstration allowing HUD to enter multi-year agreements to repay private investors who provide upfront funding for energy efficiency retrofits of HUD-assisted housing; and (2) amends the Low-Income Housing Preservation and Resident Homeownership Act (LIHPHA) to align prepayment and owner distribution policies in properties governed by LIHPHA with other PBRA-assisted properties in order to facilitate preservation transactions. While some proposals are included in the general provisions at the end of this chapter, all others will be included in authorizing legislation to be transmitted to Congress in the Spring of 2014.

Finally, the Budget proposes to expand eligibility for the Family Self Sufficiency (FSS) program to PBRA properties, and to allow certain properties in the Other Assisted Housing account to convert to PBRA via the Rental Assistance Demonstration (RAD). More information on these proposals is available under the FSS and RAD headings.

Program activities include the following:

Contract Renewals and Amendments.—These activities provide funding for HUD to renew expiring contracts and amend contracts that have not expired but require additional funding for HUD to meet remaining payment obligations. Appropriations for these activities are supplemented with recoveries of excess balances remaining on expired contracts that utilized less than anticipated resources during their initial terms.

Contract Administrators.—This activity funds the local level administration of the program through HUD agreements with performance-based contract administrators. These entities, which are typically public housing authorities or state housing finance agencies, are responsible for conducting on-site management reviews of assisted properties; adjusting contract rents; reviewing, processing, and paying monthly vouchers submitted by owners; renewing contracts with property owners; and responding to health and safety issues at properties. The Budget requests up to \$210 million for this purpose.

Since 1959, the Housing for the Elderly program (Section 202) has supported the construction and operation of supportive housing for very low-income elderly households, including frail elderly. The Budget provides \$350 million to renew and amend operating subsidy contracts for existing Section 202 housing, \$70 million to support service coordinators who work on-site to help residents obtain critical services, such as benefit counseling, and \$20 million for new supportive housing units. HUD is implementing changes authorized by the Consolidated Appropriations Act, 2014 that create a new generation of Section 202 housing with supportive services targeted at populations most in need of affordable housing. HUD will provide assistance to States to fund housing projects in coordination with state housing and health care priorities. Funded projects must be leveraged with other capital resources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs, with Section 202 funds used only for operating assistance. The Budget also continues authorities to make better use of existing resources. Using these, HUD will identify residual receipts collections, recaptures, and other unobligated balances to redirect as additional investments in housing for the elderly.

Since 1992, the Housing for Persons with Disabilities program (Section 811) has supported the development of supportive housing for very low-income people with disabilities. The Budget provides \$135 million to renew and amend operating subsidy contracts for existing Section 811 housing, and \$25 million for new Project Rental Assistance (PRA) awards to state housing agencies. The latter will fund units that serve extremely low-income tenants with disabilities transitioning out of institutions, tenants with disabilities at high risk of institutionalization, or tenants with disabilities experiencing homelessness or at high risk of homelessness. HUD will continue to fund supportive housing projects in coordination with state housing and health care priorities. PRA projects must be leveraged with other capital resources, such as Low-Income Housing Tax Credits, HOME funds, and other Federal, state, and local programs, and only require Section 811 for operating assistance. Section 811 allows for States to leverage community-based care, to affirmatively

address legal requirements for integrated housing, and to provide a platform for disabled persons to live independently in integrated community-based settings.

The Budget also continues authorities to make better use of existing resources. Using these, HUD will identify residual receipts collections, recaptures, and other unobligated balances to redirect as additional investments in PRA awards.

The Housing Counseling Assistance Program provides comprehensive housing counseling services to eligible homeowners and tenants through grants, oversight, technical assistance and training to non-profit intermediaries, state governmental entities, and other agencies with a local or national presence. Eligible counseling activities include pre- and post-purchase education, personal financial management, reverse mortgage counseling,

foreclosure prevention, loss mitigation, homelessness prevention, and rental counseling. The objectives of the Housing Counseling program include overcoming barriers to stable and affordable housing, expanding homeownership opportunities, preventing foreclosure, and deterring discrimination, scams and fraud. In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Housing Counseling Assistance Program will implement and oversee the individual testing and certification of all housing counselors providing HUD-approved counseling and will launch the Office of Housing Counseling Federal Advisory Committee. The 2015 Budget includes \$60 million for this program, the bulk of which funds grants to HUD-approved Housing Counseling agencies for direct services.

The Other Assisted Housing account contains the programs listed below:

Rent Supplement.—Rent Supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 5,000 units that have not converted to Section 8.

Section 235.—The Housing and Urban-Rural Recovery Act of 1983 (P.L. 98–181) authorized a restructured Section 235 (Homeownership Assistance) program that provided homeowners a 10-year interest reduction subsidy on their mortgages.

Section 236.—The Housing and Urban Development Act of 1968, as amended, authorizes the Section 236 Rental Housing Assistance Program, which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants. Some Section 236 properties (approximately 11,000 units) also have rental assistance contracts with HUD through the Rental Assistance Payment (RAP) program.

As an increasing number of Rent Supplement and RAP rental assistance contracts reach the ends of their terms, the funding needs of the account have shifted from amendments to short-term extensions that help preserve this affordable housing stock while long term preservation strategies are pursued. The Rental Assistance Demonstration (RAD) currently enables owners of properties with expiring Rent Supplement or RAP contracts to convert their assistance to long-term, project-based voucher contracts. The Budget proposes to extend and expand RAD conversion options for Rent Supplement and RAP contracts. More information on this Demonstration is available under the RAD heading.

Units were converted to homeownership from public and Indian housing properties in HOPE I, from FHA-insured and Government-held multifamily properties in HOPE II, and from Government-owned or -held single family properties in HOPE III. HOPE Grants were used for property acquisition, rehabilitation, mortgage subsidies, security measures, and technical assistance. In addition, grants have been devoted to counseling and training of residents, and other activities intended to help them become economically self-sufficient homeowners.

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in Section 236 subsidized projects would be deposited.

The Housing and Community Development Amendment of 1978 authorized the Secretary, subject to approval in appropriation acts, to transfer excess rent collections received after 1978 to the Troubled Projects Operating Subsidy program, renamed the Flexible Subsidy Fund. Prior to that time, collections were used for paying tax and utility increases in Section 236 projects. The Housing and Community Development Act of 1980 amended the 1978 Act by authorizing the transfer of excess rent collections regardless of when collected.

The Consolidated Appropriations Act, 2014 included a general provision that eliminated the mandated transfer of excess resources from the Rental Housing Assistance Fund to the Flexible Subsidy Fund.

The Flexible Subsidy Fund assisted financially troubled subsidized projects under certain Federal Housing Administration (FHA) authorities. The subsidies were intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low and moderate-income tenants. Priority was given to projects with Federal insurance-in-force and then to those with mortgages that had been assigned to the Department of Housing and Urban Development.

The Consolidated Appropriations Act, 2014 included a general provision that eliminated the mandated transfer of excess resources from the Rental Housing Assistance Fund to the Flexible Subsidy Fund.

The HOPE for Homeowners program was created by the Housing and Economic Recovery Act of 2008 to help homeowners at risk of default and foreclosure refinance into more affordable, sustainable loans. Under the Program, eligible homeowners refinanced their current mortgage loans into a new mortgage insured by FHA. The program ended on September 30, 2011. This account now only reflects the liquidation of prior year obligations.

The Federal Housing Administration (FHA) provides mortgage insurance to encourage lenders to make credit available to borrowers for whom the conventional market does not adequately serve. These include first-time homebuyers, minorities, lower-income families, and residents of underserved areas (central cities and rural areas). In recent years, FHA has also served broader populations, providing access as conventional financing became scarce.

In 2015, the Budget requests a limitation of \$400 billion on loan guarantees for the Mutual Mortgage Insurance (MMI) Fund. The Budget projects insurance of \$135 billion in single family forward mortgages and \$15.9 billion in Home Equity Conversion Mortgages (HECMs) with additional commitment authority available in case these amounts are exceeded during execution. Since October 2010, FHA has increased its annual premium six times, the most recent increase was implemented in May 2013. Additionally, FHA ended a policy whereby borrowers were permitted to stop paying annual insurance premiums when their loans amortized to a certain percentage of the original principal balance. FHA also now requires manual underwriting for loans with credit scores below 620 and debt-to-income ratios greater than 43 percent in order to ensure that such borrowers possess compensating factors that accord with FHA underwriting guidelines.

Apart from the Budget, HUD is pursuing a comprehensive legislative package which will give FHA the tools it needs to build upon the many administrative steps it has taken since 2009 to strengthen FHA Single Family Programs. These items will allow FHA to enhance enforcement, create certainty for FHA approved lenders, and enhance loss mitigation opportunities for borrowers with FHA approved loans. In total, all these steps will reduce losses to the MMI Fund.

Enhanced Indemnification Authority to Obtain Indemnification for Direct Endorsement Lenders.—In order to originate FHA insured loans, lenders must be approved by FHA to be either a Lender Insurance or a Direct Endorsement Lender. FHA can only seek indemnification from lenders with Lender Insurance approval. This authority would provide FHA the ability to treat both classes of FHA approved lenders equally with respect to non-compliant loans.

Authority to Terminate Origination and Underwriting Approval.—HUD will continue to seek authority to terminate lender approval on a broader geographic basis for institutions with default rates significantly higher than their peers.

Directed Sub-Servicing.—HUD will seek authority enabling FHA to, on a case by case basis, require third party servicing of loans by institutions better equipped to reduce losses to the fund and assist borrowers.

Revise FHA's Compare Ratio.—In an effort to provide greater clarity and certainty to lenders while enabling FHA to more effectively minimize poor lender performance and resulting losses, HUD seeks legislative authority to revise the calculation for the Compare Ratio to better reflect the modern lending environment.

The Budget requests an appropriation of \$170 million in administrative expenses, which will allow FHA to implement improved risk management systems critical for FHA's oversight of its insured portfolio. The Budget also requests authority to charge lenders an administrative support fee, which would generate an estimated \$30 million in offsetting collections in this account. These additional resources will fund enhancements to administrative contract support and FHA staffing, with a focus on increasing the number of loans reviewed annually for quality assurance. By increasing capacity to review recently endorsed loans, FHA will ensure lender compliance with FHA endorsement policies and reduce losses to the FHA insurance fund. The Budget allows for a transfer of up to \$15 million from this account to the Office of Housing Salaries and Expenses account.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs, if any, associated with the loan guarantees committed in 1992 and thereafter. The subsidy amounts are estimated on a present value basis.

Negative credit subsidy receipts from new loan guarantees and downward re-estimates as well as interest earnings on Treasury investments are recorded in this account. This account has no authority to obligate funds but transfers balances of budget authority as necessary for the cost of upward credit subsidy re-estimates in the MMI Program Account.

This account includes credit subsidy budget authority and outlays for FHA's General Insurance and Special Risk Insurance (GI/SRI) Fund programs, including reestimates and modifications. These programs provide mortgage insurance for a variety of purposes, including financing for the development or rehabilitation of multifamily housing, nursing homes, and hospitals. The Budget requests a limitation of \$30 billion on loan guarantees for the GI/SRI Fund. It does not request an appropriation of new credit subsidy funds.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with loan guarantees committed or direct loans obligated in 1992 and thereafter. The subsidy amounts are estimated on a present value basis. This account no longer includes appropriations for administrative contract costs, which were moved to the MMI Fund in 2010.

The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, authorizes the development and enforcement of appropriate standards for the construction, design, and performance of manufactured homes to assure their quality, durability, affordability, and safety. All manufactured homes produced since the standards took effect in 1976 must comply with Federal construction and safety standards. A majority of States participate in the program under compliance plans approved by HUD. Program requirements mandated by the Manufactured Housing Improvement Act of 2000 include procurement of an Administering Organization, formation of a Consensus Committee to recommend revisions to and interpretations of the manufactured housing standards, development and implementation of standards for installation of manufactured housing, and development and implementation of a dispute resolution program.

Fees are charged to the manufacturers for each transportable section produced to offset the expenses incurred by the Department in carrying out the responsibilities under the authorizing legislation. The 2015 Budget proposes to fund the costs of authorized activities with an estimated \$10 million in fees. In order to achieve this level of collections, HUD is assuming continued implementation of the fee increase of up to \$100 per label. This fee increase is necessary to ensure that HUD can continue to fulfill its statutory responsibilities. The 2015 Budget also proposes a general provision that would allow HUD to implement future fee changes via notice.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

The Government National Mortgage Association (GNMA) was formed by Congress in 1968. It is a wholly owned government corporation within the U.S. Department of Housing and Urban Development (HUD). It was established to support Federal housing initiatives by providing liquidity to the secondary mortgage market and to attract capital from the global capital markets for the nation's mortgage markets. Its primary function is to guarantee the timely payment of principal and interest on Mortgage-Backed Securities (MBS) that are backed by loans insured or guaranteed by the Federal Housing Administration (FHA), the Department of Veterans Affairs (VA), Rural Development in the U.S. Department of Agriculture, and HUD's Office of Public and Indian Housing.

In 2013, a Capital Reserve account was established for the Government National Mortgage Association (GNMA). Financial reserves of GNMA were transferred from the reserve receipt and liquidating accounts to the Capital Reserve account. This mandatory account earns interest on Treasury investments and is the eventual depository for all budgetary resources collected by GNMA including negative subsidy receipts from new security guarantees and downward re-estimates. This account has no authority to obligate funds but transfers resources to the GNMA Program Account as necessary for mandatory spending authorized in that account.

The Budget requests loan commitment authority of \$500 billion in 2015. The Budget also requests \$28 million for the personnel costs of the Government National Mortgage Association (GNMA), to be offset by Commitment and Multiclass fees. Before 2012, personnel expenses were funded in the "Office of Government National Mortgage Association" appropriation under the Management and Administration section of the HUD budget. For 2015, Ginnie Mae will execute a one-time Commitment fee increase effective October 1, 2014. The increase is projected to generate \$6 million in additional Commitment fee revenue in 2015.

The Housing and Urban Development Act of 1970 directs the Secretary to undertake programs of research, studies, testing, and demonstrations related to HUD's mission. These functions are carried out by HUD's Office of Policy Development and Research, and through contracts with industry, nonprofit research organizations, educational institutions, and through cooperative agreements with State and local governments, other Federal agencies, and philanthropic entities.

The Budget requests \$50 million for HUD's Research and Technology program. This request includes funding to restore and enhance various national housing surveys that are rich sources of data on the nation's housing stock, including the American Housing Survey, the Survey of New Home Sales and Completions, the Survey of Market Absorption of Multifamily Units, the Survey of New Manufactured Housing Placements, and the Rental Housing Finance Survey. Also included in the request is funding for research dissemination activities, for the Urban Data Systems, for housing finance studies, and for Research Partnerships. The data produced in the Research and Technology program also assists HUD in developing its Research Roadmap, and provides the basis for research and evaluation priorities in the Transformation Initiative program.

The Budget requests \$71 million for fair housing activities to support efforts to end housing discrimination. Of the amount requested, \$23.3 million is for the Fair Housing Assistance Program (FHAP), \$45.6 million is for the Fair Housing Initiatives Program (FHIP), \$1.8 million is for the National Fair Housing Training Academy, and \$300 thousand is for the Limited English Proficiency Initiative (LEPI).

FHAP, authorized by Title VIII of the Civil Rights Act of 1968, as amended, provides funding to State and local agencies to assure prompt and effective processing of complaints under substantially equivalent State and local fair housing laws. To be eligible for assistance through FHAP, an agency must demonstrate that the fair housing law it administers is substantially equivalent to the Fair Housing Act. It is estimated that there will be a total of 90 FHAP jurisdictions in 2015. The funding requested for FHAP will support fair housing enforcement by funding State and local fair housing organizations to meet the needs of currently underserved populations. It will also address the national and ongoing problem of discrimination against minority homebuyers and renters, as identified in the 2012 Housing Discrimination Against Racial and Ethnic Minorities Study.

FHIP, authorized by the Housing and Community Development Act of 1987, as amended by the Housing and Community Development Act of 1992, provides funding to States and local governments, and to public and private non-profit organizations that administer programs to prevent or eliminate discriminatory housing practices through enforcement, education, and outreach.

The National Fair Housing Training Academy (NFTHA) provides comprehensive fair housing and civil rights training for investigators, local agencies, educators, attorneys, industry representatives and other housing industry professionals.

LEPI provides funds for oral interpretation and written translation services, which help make fair housing programs and activities accessible to people who are not proficient in English.

Title X of the Housing and Community Development Act of 1992 (Public Law 102-550), known as the Residential Lead-Based Paint Hazard Reduction Act, authorized the Secretary to establish the Lead-Based Paint Hazard Control Grant Program. The primary purpose of the program is to reduce the exposure of young children to lead-based paint and other environmental

LEAD HAZARD REDUCTION—Continued

hazards in their homes, including protecting them from permanent developmental problems and asthma, and exposure to pesticides and carbon monoxide.

The program plays a critical role in addressing the number one environmental disease impacting children: lead poisoning. The Budget request of \$120 million includes \$92 million for HUD's Lead Hazard Control Program, \$25 million for the Healthy Homes Program, and \$2 million for Technical Studies. The 2015 Budget includes a provision that would allow the transfer of unobligated balances and recaptured funds from undersubscribed competitive programs to other competitive programs experiencing oversubscription. The Budget also includes a general provision that would grant the Secretary authority to carry out investigations, administer oaths, and subpoena documents related to violations of the Lead Disclosure provision of Title X. In addition, HUD will submit a legislative package in the Spring with updates to program standards and definitions.

The Lead Hazard Control Grant Program provides grants of \$1 million to \$4 million to State and local governments and Indian tribes for control of lead-based paint hazards in private low-income rental and owner-occupied housing. The grants are also designed to facilitate the development of a housing maintenance and rehabilitation workforce trained in lead-safe work practices and a certified hazard evaluation and control industry. In awarding grants, HUD promotes the use of new, low-cost approaches to hazard control that can be replicated across the nation.

The Healthy Homes Program enables the Department to assess and control housing-related hazards that contribute to childhood diseases and injuries. With funding from this program, grantees implement and evaluate methods for controlling two or more housing-related diseases through a single intervention.

The Office of Healthy Homes and Lead Hazard Control will continue its Technical Support program, which includes public education; support for State and local agencies, private property owners, HUD programs and field offices and professional organizations; technical studies to improve program policy and implementation; quality control to ensure that the evaluation and control of lead-based paint hazards is done properly in HUD-assisted housing; and development of standards, technical guidance, regulations and improved testing and hazard control methods.

Beginning with the passage of the Consolidated Appropriations Act, 2008, this account no longer receives annual appropriations for Departmental administrative expenses. Instead, salary and expense funds are distributed across multiple accounts, achieving greater transparency and accountability within the Department. Resources in this account reflect prior-year disaster supplemental appropriations, as well as funds for disaster-related administrative expenses under certain interagency agreements.

Initiated in 2010, the Transformation Initiative (TI) is an ongoing effort aimed at increasing the effectiveness of program and service delivery, facilitating an evidence-based approach to improving program outcomes, and enabling innovative approaches to address the nation's housing and urban development problems. The 2015 Budget proposes TI transfers up to a maximum of 0.5 percent per program or \$15 million, whichever is less, and \$80 million in total. The Budget proposes to use these funds for three complementary purposes: (1) research, evaluation and program metrics, (2) program demonstrations, and (3) technical assistance and capacity building.

Through an extensive consultation and prioritization process, HUD's Office of Policy Development and Research (PD&R) has developed the "Research Roadmap 2014–2018," which identifies research and evaluation priorities that will continue to set HUD on a path to address the most pressing housing and urban development challenges. The TI provides a predictable stream of funding for these high quality research and evaluation projects and program demonstrations that will inform sound policymaking. The TI supplements HUD's Research and Technology appropriations, which are mainly dedicated to funding housing data, such as the American Housing Survey.

The TI also enables HUD to design and execute a series of major research demonstrations that rigorously test new program innovations. Demonstrations can be used to explore fundamental questions about housing market dynamics and their impact on economic, social and environmental objectives. The demonstrations will improve programs, help State and local governments, non-profits, and for profit organizations to develop more effective strategies for housing and community and economic development, and improve the delivery and reduce the cost of public services.

Traditionally, HUD has delivered program-oriented technical assistance to ensure that HUD grantees are fully aware of the rules governing the disparate programs. While awareness of rules is necessary, effective responses to urban and housing challenges increasingly require coordination and awareness of diverse areas of knowledge: housing finance as well as land use, energy efficiency as well as healthy homes, community development as well as transportation planning, and accessibility as well as job creation. The TI enables HUD to develop enhanced and focused support to deliver cross-program technical assistance for States, local governments, and other HUD grantees for integrated management and planning across programs and jurisdictions, including improved use of data to drive decision-making and results. In 2015, HUD will strengthen its focus on using TI to deliver comprehensive capacity building to help distressed communities position themselves for revitalization and economic growth.

The following table illustrates the *maximum* and *estimated* transfers from HUD's programs into the Transformation Initiative account in 2015.
